A teal-tinted photograph of a wet street at night. A car's headlights illuminate a path on the wet pavement, creating a bright, reflective line that leads towards the viewer. The surrounding area is dark, with some blurred lights and shapes in the background, suggesting a city street scene. The overall mood is atmospheric and artistic.

DJ D2B

D2B started deejaying in the early 90's at the brink of the electronic music movement, when he discovered artists such as Larry Heard, Lil Louis, Jeff Mills, DJ Sneak, Richie Hawtin to mention but a few.

The production of techno music in Detroit and Chicago, coupled with the underground rave sound and spirit gave rise to a radical transformation of his musical universe, which has never left him since then. Coming from a family background of music lovers and nurtured from a young age on jazz & funk, DJ D2B grew up with his family's record collection, mixing and blending genres as soon as he got his first decks.

Rapidly building up his own repertoire, he started deejaying at numerous Parisian nights, raves and clubs in the capital.

His musical career is made up of several encounters at the heart of the Parisian night life, where he learned and developed what has become his musical trademark.

DJ D2B is one of those deejays who mixes instinctively, keeping in touch with the vibe on the dance floor, and is a significant contributor to the underground sound of tomorrow, a labelled Techy flavours playlist. Recently he signed on *Elektrotribe Records* label, and toured in **Europe** for gigs in **Berlin** and **Lausanne** among others.

Steve Ko played worldwide and began within the UK, then Germany, Belgium, Switzerland ..

He played alongside very talented and influential musicians in the electronic music industry such as **Derrick May**, **Juan Atkins**, **Laurent Garnier**, **Alton Miller**, etc. Steve Ko was very influenced by the American sound, leaving his style a savory mélange between the sound of the Detroit & Berlin scenes without forgetting the influence of his origins.

FOCUS DUB CREATORS KANPEKINA EP ON LA CARTE SON

Le Son
octobre 2016

Dub Creators, à la tête de La Pince Records, nous propose une EP de techno minimale aussi gras qu'un tube de menthe sur la plage de la côte d'azur.

Formé de trois Parisiens, DJ D2B, Steve Ko et Lucho Misterhands, ce premier EP composé par DJ D2B, ont fusionné leurs forces pour ce deuxième disque du catalogue de La Pince Records, leur label.

Dub Creators -
La Pince Records (LPR002)

Préparé par la déferlante techno minimale du début des années 2000, le titre se sur une basse massive assez destructrice, tandis qu'une mimique dub agit en matière salvatrice à l'ensemble, le sortant de cette monotonie que beaucoup de titres du style génèrent. La rythmique, elle, file droit : pas de place à la contemplation, simple avis aux rêveurs des dancefloor.

Quant au reste de l'EP, il est tout simplement constitué des remix produits par les trois membres de Dub Creators, mais séparément cette fois. Celui de Lucho Misterhands reste très proche de l'original alors que DJ D2B s'en écarte un peu en introduisant une légère nappe synthétique qui plonge l'auditeur dans des recoins plus cotonneux. Steve Ko, lui, parvient à coudre quelques mélodies et d'habiles éléments qui permettent au morceau de s'aérer – et de ne pas s'étouffer dans la chiantise.
